3. Details of Community Service Activity:-

Location of Activity:

Bhartiya Zalawadi Trust Conducted Suwarna Sandhya Old age home in which I have done my Community Service with my Friends Akshay and Dhaval.

Area/Village: Badarkha, Dholka

District: Ahmedabad

State: Gujarat

Country: India

Aim of the Activity:-

To Contribute or Apply ones (my) non-technical (Spiritual, Physical and Mental) and also little bit technical knowledge with an emotion for the Old people and the problems which they are facing in that age (in that situation).

Special Task Carried out:-

To develop your non-technical skills as well as technical in different manner (Like Old age home etc.) for the stuff which is going on in real world. (Especially in India)

Photos of Social Activities done by me:-

Entrance of the Organization

Serving Food to Old people

Talking with Old People
to listen their struggled Life stories.

A guy in white shirt leading me and my
friends towards store room.

Cleaning the Store room to
and making it to well structural.

Helping to my colleague to collect the
Waste from that useful store room.

Cleaning the Floor or Passage with my friends to clean the Old age home.

Beneficiaries of Activity from Community:-

- Those people who have less physical and mental Resilience and also who have diminish sense of humour etc. And also whose age is probably around 60 to 100 (Average age is 75) and who are living their life with loneliness without partner and those people who don't want to be a load for their family they are the beneficiaries of this particular Activity.

Identifications of the Problems associated with the concern NGO:-

- First of all, Financial support is needed in terms of donation or funds.
- Lack of Proper maintenance and Health facilities.
- Social, Emotional and Psychological Problems are facing by Old people. (In short Nobody is happy.)
- Require Healthy Atmosphere and Mental illness.
- Negligible Family Support (Most Common Problem)

Technical Solution Proposed:-

According to me,

- For Financial Support they need to advertise their N.G.O. through Social Media or Poster. So that they can find lot of donors from that medium.
- Apart From that for maintenance they should have proper staff for individual task and for Health Facilities they need to Organize Such good types of Medical Camps at least one or two times in a year.
- Then to make the old people happy try to see them Some Spiritual movies, books etc. and Library facilities for reading Spiritual books and also the Exercise garden should also be there to feel Mentally Relaxation for Old people.
- To fulfil the Healthy Atmosphere they required such Yoga camps and also some other Exercise Camps to solve that Problem.
- To solve the Problem of Negligible Family Support, Send Videos or messages of Old People to their Child (Son/Daughter) On Saturday and Sunday to feel them what is Old age. So they will definitely become Emotional because at the end they are their Child.

Impact of Activity for Social benefit:-

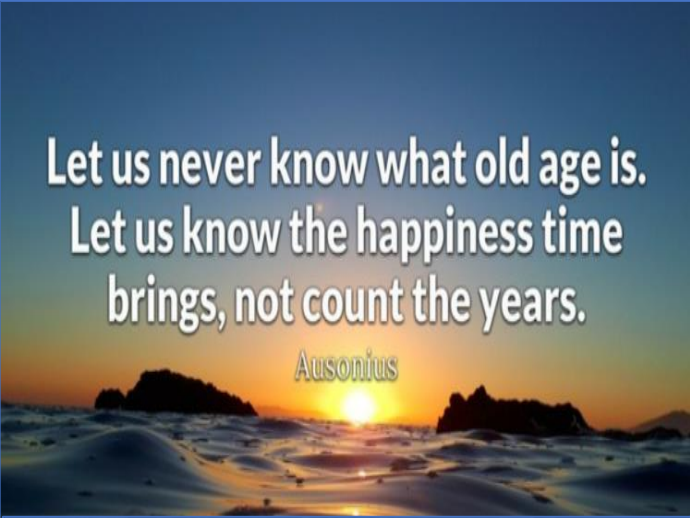

- There is a great impact on our Society to see these kinds of things are occurring in our Society. Our Indian Culture doesn't allow the Old age home in our Country but because of lack of Spiritual, Mental and Ritual Education these kind of things are Occurring in Our Country. According to Shakespeare, "Old is Gold" says that Old People should not be a load for us, they are Gold because they have Some Golden experience which is very Proud moment for us So for that One solution is possible to decrease the Old age home's population, "Parents should give the best Sacrament (Ritual) properly to their Child is only the solution to decrease the old age home" said by Pramukh Swami Maharaj. As we know that Old people have a Golden Experience, we should Respect their Knowledge, thought process, etc. So In those 21

days I enjoyed very well to help those people and I got so many blessings from them. So This is the impact of Activity for Social benefit.

Concluding Remark:-

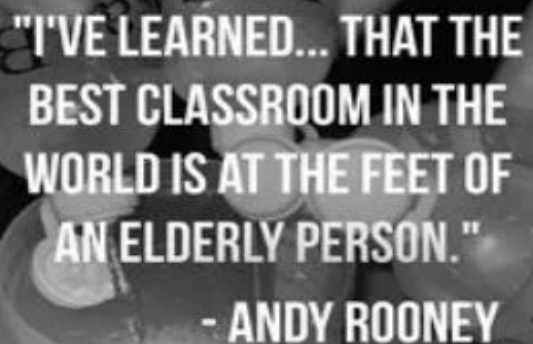

From this Report, it can be Concluded that the Social Activity is not just a Activity to do and Complete it, it's an Emotional Activity which gives me lot of satisfaction in those 21 days and I am really glad to say that my college (Nirma University) conducting this kind of Course in our curriculum. Because these kind of course one engineer should know otherwise he hasn't any Social Attachment and he has only the Technical Knowledge. But we know that Technical skills can only be applied while there are a Non Technical (Social or Real World) Problems or Concepts which we face in our day to day life. So I learn so many things which I can't learn in Academic Education Like, How to overcome such situation when you are struggling a Failure?. Because all the old people are struggling such kind of stuff which we have not seen yet. An Indian Culture doesn't allow these kind of things (Like old age home etc.) but it is a reality. The main thing which I can Conclude is that Spiritual, Mental and Physical development with peacefully is the main purpose of this particular Activity

Some Slogans which tells us the Reality of Life:-

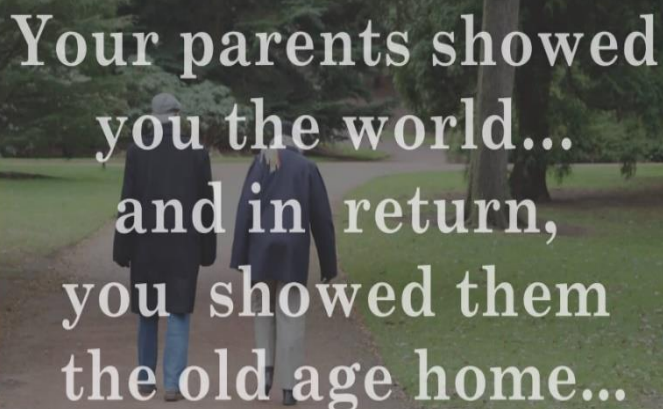

Let us never know what old age is.
Let us know the happiness time
brings, not count the years.

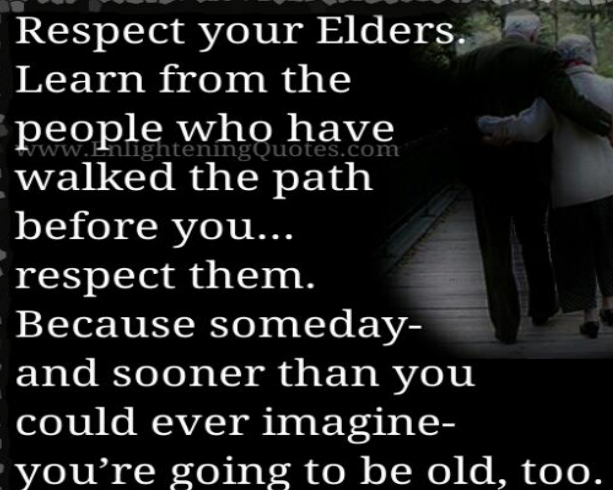

Ausonius

"I'VE LEARNED... THAT THE
BEST CLASSROOM IN THE
WORLD IS AT THE FEET OF
AN ELDERLY PERSON."
- ANDY ROONEY

Your parents showed
you the world...
and in return,
you showed them
the old age home...

Respect your Elders.
Learn from the
people who have
walked the path
before you...
respect them.
Because someday-
and sooner than you
could ever imagine-
you're going to be old, too.
